

PowerLite® 420, 425W, 430 and 435W

MULTIMEDIA PROJECTORS

Affordable short-throw projectors with premium audio and connectivity.

Ideal for wall-mount installations in classrooms or conference rooms, the PowerLite 420/425W/430/435W offer the perfect solutions — all at the perfect price. These budget-friendly short-throw projectors minimize shadow interference and glare, to ensure optimum viewing of your presentations. Using a built-in short-throw lens, they enable you to project an 80" image from just 2.7–2.9 feet away. The 425W/435W boast a 16:10 widescreen aspect ratio that's ideal for displaying high-definition content and content from widescreen computers. All projectors are equipped with a microphone input and a premium 16 W speaker to enhance any lesson with captivating audio. HDMI digital connectivity and advanced networking capabilities offer even more flexibility for teaching scenarios today and in the future.

Giant standard and widescreen images — XGA (1024 x 768) resolution and 4:3 aspect ratio (PowerLite 420/430); WXGA (1280 x 800) resolution and 16:10 aspect ratio (PowerLite 425W/435W)

Bright, colorful images — 2500 lumens color/white light output¹ (PowerLite 420/425W); 3000 lumens color/white light output¹ (PowerLite 430/435W)

Future-ready connectivity — HDMI input for digital connectivity with the latest laptops and media players; delivers high-quality audio and video with just one cable

PowerLite® 420/425W/430/435W MULTIMEDIA PROJECTORS

The best-selling projectors in the world

Epson understands education and has a solution no matter what your teaching scenario. Built with image quality and reliability in mind, EPSON® projectors enhance communication and inspire collaboration, while offering a low cost of ownership. From long-throw projectors designed for traditional educational settings to ultra-short-throw and all-in-one solutions built for progressive classrooms, Epson has the model made for you.

Leading-edge technology and performance

Spectacular quality and color with 3LCD technology

Innovative technology with proven reliability

- 3 chips for full-time, vibrant color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors²
- Over 20 years of road-tested reliability built into every projector

Amazing color and white light output

Whether you're projecting images with deep, dark colors or a white screen with minimal text or graphics, you get rich, colorful images with:

- The PowerLite 420 and 425W — 2500 lumens of color/white light output¹
- The PowerLite 430 and 435W — 3000 lumens of color/white light output¹

Short throw distance

Project large images from a short distance (i.e., an 80" image from just 2.7–2.9 feet away)

- Ideal for use with interactive whiteboards or standard whiteboards
- Minimizes shadow interference and glare

Energy-efficient E-TORL® lamp

- Delivers more lumens per watt and lasts up to 6000 hours³
- Minimizes both light diffraction and light leakage
- E-TORL lamps maximize your presentation time, while minimizing your costs

Brilliant widescreen performance (PowerLite 425W/435W only)

- High-definition WXGA (1280 x 800) resolution and a 16:10 aspect ratio allow you to project HD widescreen content as well as content from widescreen notebooks
- Get amazing images and 30% more image area than with a standard 4:3 projector, plus the capability to display 4:3 and 16:9 content, without sacrificing image quality

Long throw

Short throw

Significant reduction in shadow interference

Advanced connectivity including network features

High-quality images with HDMI digital connectivity

- Delivers both audio and brilliant video content with just one cable
- Compatible with the latest laptops, Blu-ray® and media players

HDMI™

Present remotely via RJ-45 network connectivity

Transmit both audio and video with a single connection

- Display material from any networked location, or in up to 4 different classrooms simultaneously
- Present remotely to support distance learning applications
- Connect wirelessly, via a network access point or optional wireless module, to give teachers the freedom to move around the classroom and interact with students for a more engaging learning environment

Monitor/control projectors remotely

Easily monitor/control EPSON networked projectors remotely, using the RJ-45 connection and EasyMP® Monitor software

- Save time and maintenance costs — power classroom projectors on and off without having to go to each individual classroom; set schedules for automatic events
- Receive e-mail alerts when attention is required
- Crestron RoomView™ enabled — monitor/control your projector with RoomView software, without the need for an A/V control box
- Broadcast your message — advertise events or broadcast instructions to all networked EPSON projectors⁴

Virtual remote control on your computer

- Convenient projector remote control via a web browser (when projector is connected to the network)
- Control power on/off, source, volume, page up/down functions and more from your computer
- No special applications or software necessary; simply use your web browser in Windows® or Mac®

Easy setup using 3-in-1 USB Plug 'n Play — for PC and Mac

Three features, all with one standard USB connection

- Display your presentation
- Transmit audio
- Control your presentation via remote control
- Eliminate the need for three separate cable connections

Expanded USB functionality

- Deliver PC-free image slideshows using a USB flashdrive (supports multiple file formats: JPEG, PNG, GIF and BMP)
- Partner your projector directly with the EPSON DC-06 document camera

Flexible setup with optional wall mount

Easy setup and picture adjustments

- 1.35x digital zoom — for positioning flexibility
- +/- 15 degrees vertical keystone correction — allows for easy adjustments when the projector is placed above or below the center of the projection screen
- +/- 15 degrees horizontal keystone correction — allows for off-center positioning, so you can still present a rectangular image

Quick Corner®

- This innovative feature allows you to move any of the four corners of an image independently, for a perfectly rectangular picture

Convenient control and energy-saving features

- Instant Off® — no cool-down time required; it's ready to shut down when you are
- A/V Mute — pause your presentation to direct focus elsewhere or take a quick break
- Sleep Mode — set from 1 to 30 minutes to save energy when no signal is detected
- Direct Power On/Off — power the projector on/off with the flip of a wall switch

Optional ELPMB27 short-throw wall mount

- Designed for use with Epson's PowerLite 420, 425W, 430 and 435W short-throw projectors
- Wall mount offers an easy-to-install, affordable mounting solution for integration with a variety of interactive solutions and projection surfaces
- Includes a wide mounting plate and telescopic extension arm, which offers convenient and flexible installation

Built for flexible installation

Better Products for a Better Future™

For more information on Epson's environmental programs, go to eco.epson.com

Eco Features

- Energy-efficient 3LCD light engine
- Energy-efficient E-TORL lamp
- RoHS compliant
- Designed to be recycled®
- Epson America, Inc. is a SmartWay™ Transport Partner⁷

Unique sound and communication tools

Built-in 16 W speaker and microphone input

- Captivate your entire classroom with 16 W of powerful sound, without purchasing external speakers
- Convenient microphone input allows you to connect a microphone to the projector and amplify your voice through the projector's built-in speakers
- The microphone can even be used while the projector is in standby mode, which saves energy and costs

Built-in closed captioning

- Essential for education — helps meet ADA508 requirements for students with hearing impairments
- Helps save money — no need to pay for an additional decoder and installation
- Effective and easy to use — easily enabled or disabled through the projector remote or menu

Built-in teaching aids save time

- Choose from four pre-set templates to project lines or grids onto whiteboards or chalkboards, or create a custom template such as a map or other image used frequently
- Simply display the template by selecting the customizable User button on the projector remote control

Easily project lines or grids with built-in templates

PowerLite 420, 425W, 430 and 435W Additional Features

- **Versatile connectivity for the classroom** — HDMI, computer/VGA inputs, audio inputs, USB, audio out, monitor out, and RS-232c

- **Fast wireless 802.11 b/g/n connectivity** — via the optional wireless module with either:

- Included software (Mac and PC) or
- Optional Quick Wireless Connection USB key for fast, ad hoc, wireless connectivity (PC only)

- **High density filter** — 8x the surface area of previous filters for even more protection against dust; long filter cleaning schedule up to 5000 hours⁵

¹ Color and white light output will vary depending on mode selected. White light output measured using ISO 21118 standard.

² Data source: ProjectorCentral.com Jan. 2011. Average of 1038 shipping models for which manufacturers provided lumens and total power data, all resolutions and brightness levels.

³ Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

⁴ Works only with EPSON projectors that support presentation over the network capability.

⁵ Recommendation based on normal room conditions. Cleaning intervals or requirements may vary depending on use, environment and other conditions.
